Calle Valdes 27716-726
Calle Valdes 27728-738
Calle Valdes 27740-750

<b>Walking Trails FDR</b>
Rec 2

<b>Walking Trails Seal Coat</b>
Espinoza
Zurburan
Ribalta
El Greco

### **What is full depth reclamation?**

A very popular reconstruction alternative is known as **Full-Depth Reclamation (FDR)**. FDR is an in-place recycling method for reconstruction of existing flexible pavements using the existing pavement section material as the base for the new roadway-wearing surface.

### **What is a mill and overlay?**

One form of street maintenance is sometimes referred to as "**mill and overlay**". This process consists of two major steps: 1) **milling** the street and 2) laying the new asphalt (**overlay**). To **mill** the street, workers use heavy equipment to remove the surface of the street and place it into dump trucks.
