REFERENCE

SATELLITE DISH INSTALLATION AGREEMENT

1. Homeowner agrees to install the dish on or near the roof towards the rear of the house if adequate reception is available in that location.
2. Homeowner agrees to run the wires _____ into _____ attic at the nearest opportunity, and not on the outside walls of the home.
3. Homeowner agrees, when there is no _____, and surface mounting wires on the outside wall is the only possible alternative, then wires will be mounted horizontally and/or vertically, not diagonally unless under the eaves, they will be supported each several feet so they do not sag or blow in the wind, they will be placed next to an architectural feature such as a stucco joint with siding, a window frame or up under the eave, and they will be painted the color of the surface they are mounted to hide them as much as possible.
4. Homeowner agrees to give the signed and dated _____ to the _____ after _____ is installed and all needed _____ is completed.
5. Homeowner agrees to _____ the agreement with the _____.
